

# Introducing the B.E.S.T Energy Foot Spa

## When You're Tired of Being TIRED

The B.E.S.T.™ (Bio-Electric Stimulating Technique) unit is a natural health device that may help your body strengthen and balance itself!

The B.E.S.T.™ unit works through the most basic and plentiful substance in your body, water.

The human body is approximately 80% water.

Water is an excellent conductor of electricity.

The human body functions off of electro-magnetic signals.

Similar to a car battery that charges a car... the human body greatly benefits from being re-charged.

The B.E.S.T.™ unit charges the water and the water (which your feet soak in) charges your entire body.

By doing so, the B.E.S.T.™ unit may energize cells, may balance and strengthen the body to eliminate toxins and may increase your overall sense of health and well-being.

People who have experienced B.E.S.T.™ footbaths report amazing results!

They claim the B.E.S.T.™ energy foot spa has helped them with the following health issues:

- Fatigue
- Increased Energy and Vitality
- Detoxification
